PROJECTS

■ NEWS APP .

Developed a responsive News App using React.js and integrated with the NewsAPI to fetch and display real-time news articles.

Displayed top headlines and categorized news (e.g., sports, technology, health).

Enabled search functionality for custom topics.

Responsive design for optimal viewing on various devices.

Technologies: React.js, NewsAPI, CSS/Bootstrap/Tailwind for styling ,Fetch for API calls.

■ ROCK PAPER SCISSORS GAME .

Interactive Gameplay : User selects rock, paper, or scissors, and the computer generates a random choice.

Real-time Results : Displays the winner of each round (Player, Computer, or Draw).

Technologies: HTML5, CSS3 and Javascript.

■ TIK-TAC-TOE- GAME .

Built an interactive Tic-Tac-Toe game using JavaScript, HTML, and CSS. The game allows two players to take turns and compete, with real-time updates and a visually appealing interface.

Two-Player Mode: Players alternate turns marking X and O on a 3x3 grid.

Win Detection: Checks for horizontal, vertical, and diagonal wins or a draw.

Interactive UI: Highlighting of winning combinations and live updates to the game board.

Reset Option: A "Reset Game" button to start a new round without refreshing the page.

Responsive Design: Optimized for mobile and desktop viewing.
